# TekBB Theme Documentation

Overview

TekBB is a premium responsive MyBB theme designed to enhance the look and feel of your MyBB forum.

Features

- **Responsive Layout/Compatible for Mobile Devices**: TekBB offers a fully responsive design, ensuring your forum looks great on any device, including smartphones and tablets.

- **Color Variables**: Easily customize the theme's color palette using predefined variables for quicker personalization.
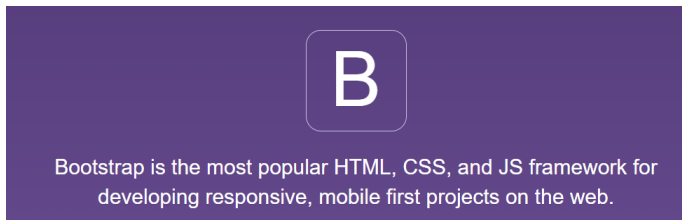

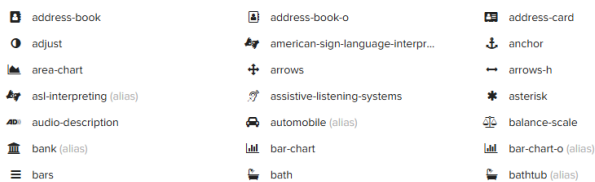

- **Based on Bootstrap Framework**: TekBB leverages the popular Bootstrap framework, making it easy to work with and customize.

Bootstrap is the most popular HTML, CSS, and JS framework for developing responsive, mobile first projects on the web.

- **FontAwesome Icons**: Integrated with FontAwesome, TekBB allows you to use a variety of scalable icons anywhere on your site.

- **Use of Colorful Bootstrap Buttons and Alert Messages**: The theme incorporates stylish, colorful Bootstrap buttons and alert messages to enhance user interaction.
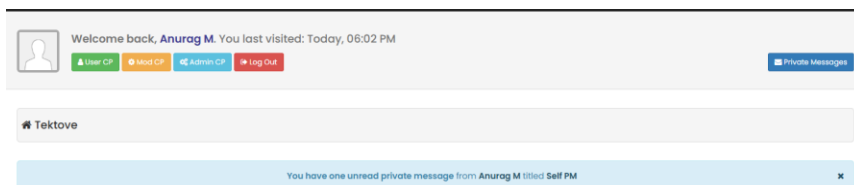

- **3 Column Footer**: TekBB comes with a pre-designed, easy-to-edit three-column footer for adding additional information or widgets.
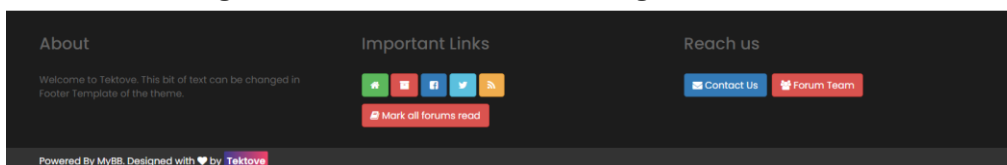

- **Logo PSD Included**: Customizing the theme logo is easy with the provided PSD file, allowing you to modify it according to your branding needs.
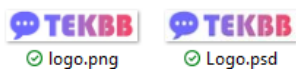

- **Boardstats with CountUp**: The Board Stats section features a count-up animation, providing a dynamic display of your forum statistics.

- **Easy Customization**: TekBB is designed for effortless customization, allowing you to tweak and personalize the theme to your liking without digging too deep into the code.

Folder Structure:

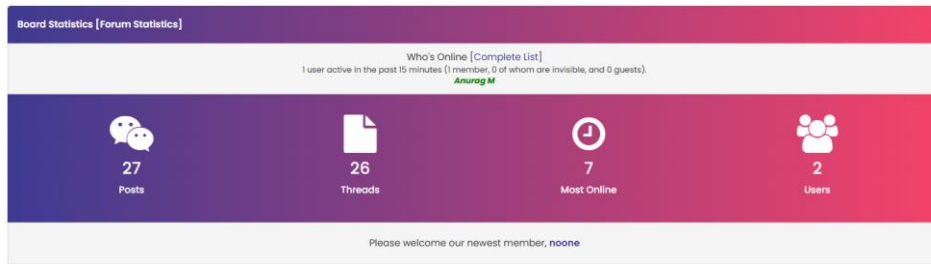

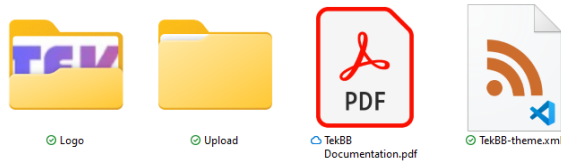

- **Logo (Folder)**: Contains PNG and PSD versions of the TekBB logo.
- **Upload (Folder)**: Contains a subfolder called images, which must be uploaded to the MyBB installation root directory.
- **TekBB-theme.xml (File)**: The main theme file that should be imported into your forum.

Installation Steps

Step 1: Upload Theme Files

1. Extract the contents of the TekBB theme package.
2. Navigate to the Upload folder inside the extracted package.
3. Upload the entire images folder to your MyBB installation root directory. Ensure the folder structure is preserved, and the files are correctly placed in <mybb-installation>/images

Step 2: Import the Theme

1. Log in to your MyBB Admin Control Panel (Admin CP).

2. Navigate to **Templates & Style** from the top menu.
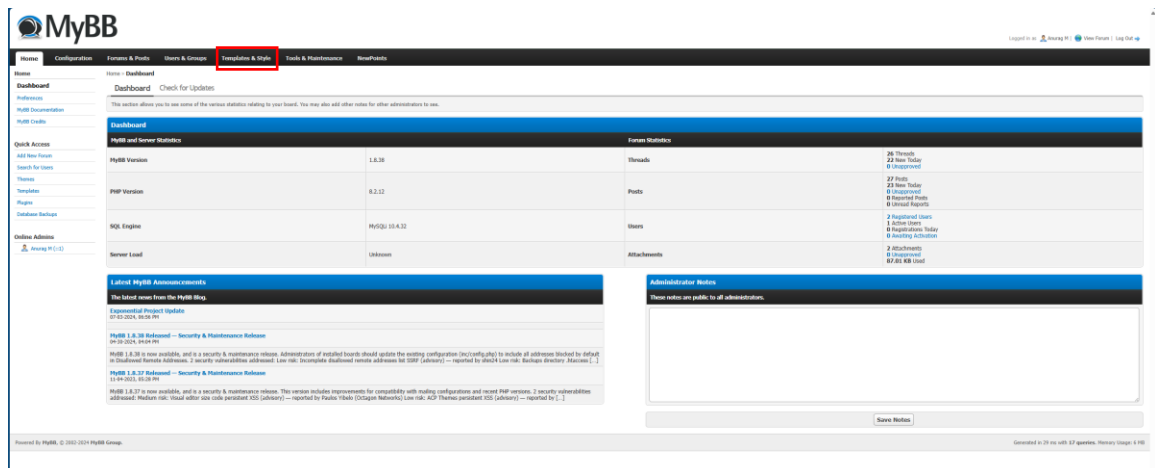

3. In the Themes section, click **Import a Theme**.
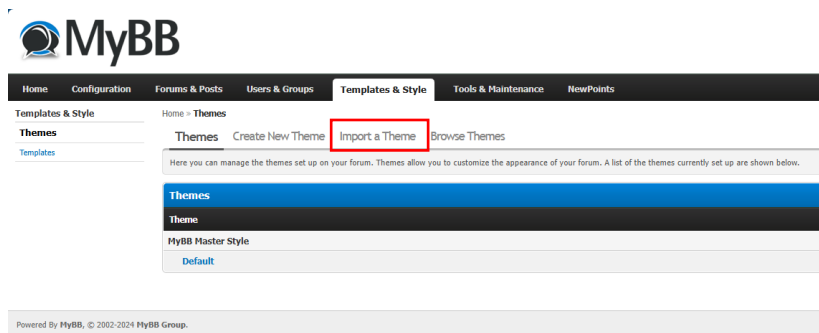

4. Under **Local File**, click the Choose File button and select the TekBB-theme.xml file from your computer.
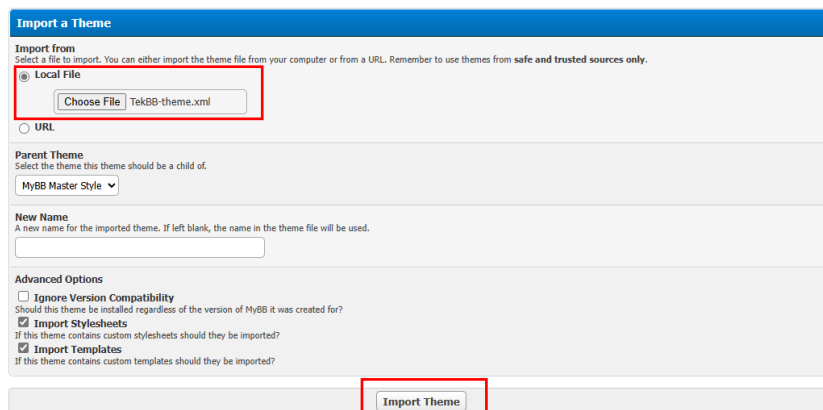

5. Click **Import Theme** to upload and install the theme.
6. If it fails for some reason, try checking the checkbox for Ignore Version Compatibility before clicking on Import Theme

Step 3: Apply the Theme

1. Once the theme is successfully imported, go to **Templates & Style > Themes**.
2. Find **TekBB** in the list of available themes.

🌐 Website: https://tektove.com   ✉ Email: mail@tektove.com

3. Click **Options** and select **Set as Default** to make TekBB the default theme for your forum. Alternatively, you can Click the little Blue Icon shown in the image below as well.

4. Visit your forum to see the theme in action.

Support & Subscription

The **TekBB** theme is available for free at Tektove. and MyBB Extend Section.

After downloading, you'll have access to the theme files and any future updates. For support, customization, or troubleshooting, you need to be a **subscriber** at **Tektove Forums**. Subscribers gain access to exclusive resources, premium support, and a community of experts ready to assist you.

Add-ons:

- **Tektove Copyright Removal**: For an additional **$79 USD**, you can purchase the copyright removal add-on, allowing you to remove the "Designed by Tektove" credit from the footer of your forum.
